SAMUEL OGUNLEYE

FRONTEND DEVELOPER

Work History

Junior Web Developer, Tutors Learners Wordwide

SEPTEMBER 2020 — MAY 2021

- Converted AdobeXD UI designs into usable code.
- Worked closely with designers to deliver pixel perfect UIs with responsive web design principles. This improved user experience and increased user retention on the sites as judged by analytics.
- Maintained eCommerce applications built with ReactJS by implementing requested features and fixing bugs quickly to ensure that clients were satisfied.

Frontend Developer, HNG (Intern), Lagos

JUNE 2020 — AUGUST 2020

- Out of 11k interns, I was among the top 30% interns who were qualified after the grading.
- Worked closely with a UI/UX designer to implement the homepage of a bus-tracking system interface which aims to ease, secure and track any type of vehicle.
- Co-created responsive web templates to be sold on Envato market.
- Connected the client side of already-implemented designs with backend APIs using Axios.

Frontend Developer, Steady Tech Services , Lagos

MARCH 2019 — JUNE 2020

- Created wire-frames and user-flow designs used for UI/UX designs in web applications.
- Effectively translated client requirements into application designs and systems requirements which deals with online trades (forex, cryptocurrency).

Achievements

Frontend Developer, StartNG (Intern), Lagos

MARCH 2020 — MAY 2020

Started with about 5000 interns and I was among the top finalists.

Frameworks

React JS, Bootstrap, Chakra-UI
